

PRESS RELEASE
OCTOBER 5, 2015

Kemutec Group Inc

FOR IMMEDIATE RELEASE

Business as Usual at Kemutec

October 5, 2015 - Bristol, PA - Following recent announcements in the media and to avoid any confusion in the market place, Kemutec is pleased to announce that "It is Business as Usual".

This means that Kemutec will continue to supply its range of Powder Processing equipment which includes Centrifugal Sifters, Tumbler & Vibratory Flat-deck Screeners, Cone Mills, Universal Mills, Air Classifier Mills and Kibbler Pre-breakers and also our extensive range of Mixers and Blenders.

In addition, we continue to provide our full After-Sales and Spares Parts support from our Bristol, PA facility, where we carry extensive stocks of essential Sifter and Mill parts and consumables, many of which are made in-house in our own group specialized facility.

Kemutec is proud of the success and extremely positive name it has earned in its 35 years of business in the USA, where our reputation has been built on the supply of quality goods and exemplary customer service. We will continue to provide an all encompassing service approach from our vastly experienced and knowledgeable team of Sales Professionals, Engineers and Process Technicians. This will include our Process Solution Selling and will continue with Product Testing in the Kemutec Technology Center, through Custom Product Design to the supply of quality and "fit for purpose" powder process machinery.
